1. Homepage

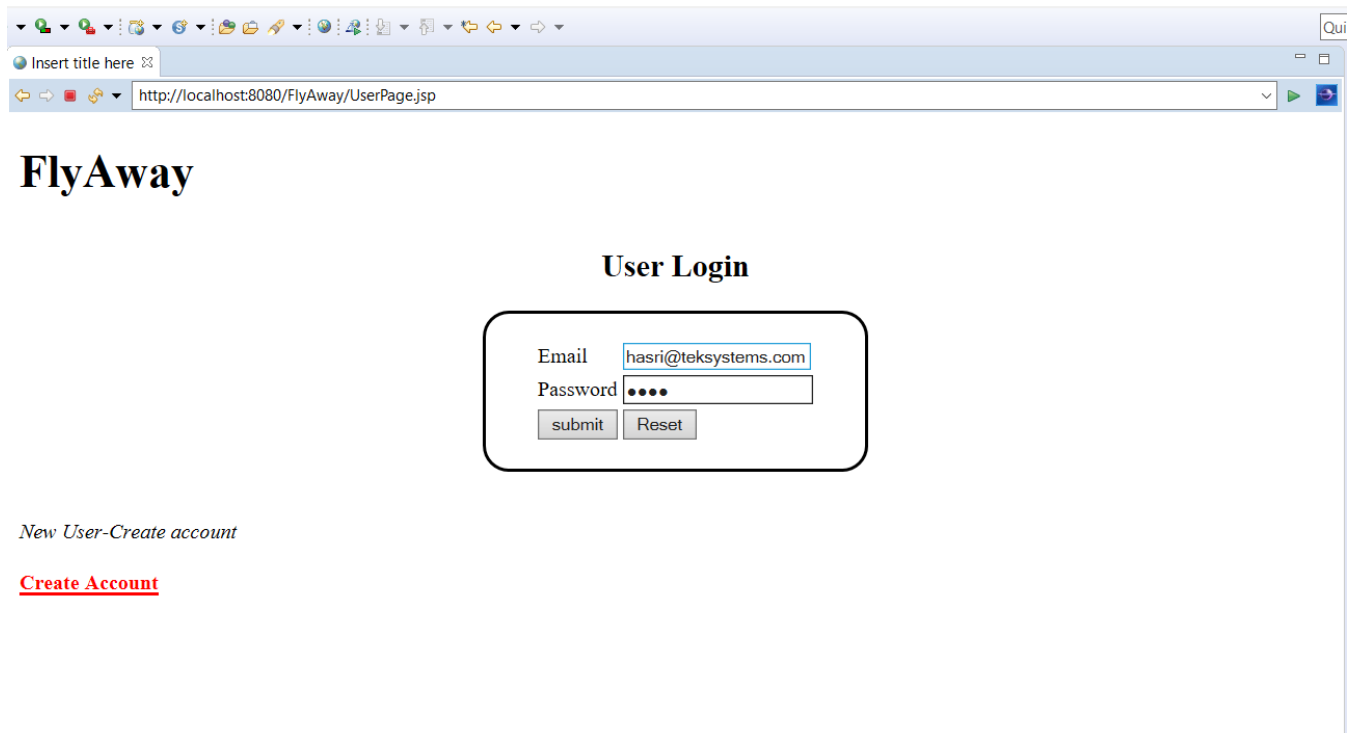

The screenshot shows a web browser window with the title "FlyAway". The address bar displays "http://localhost:8080/FlyAway/HomePage.jsp". The page content includes the "FlyAway" logo at the top left. Below the logo, there are two links: "User Login" on the left and "Admin Login" on the right. In the center of the page, there is a rounded rectangular form with the following fields: "From :-", "To :-", "Departure :-", and "Travellers :-", each followed by a text input box. At the bottom of this form are two buttons: "Search" and "Reset".

2. User Login Page

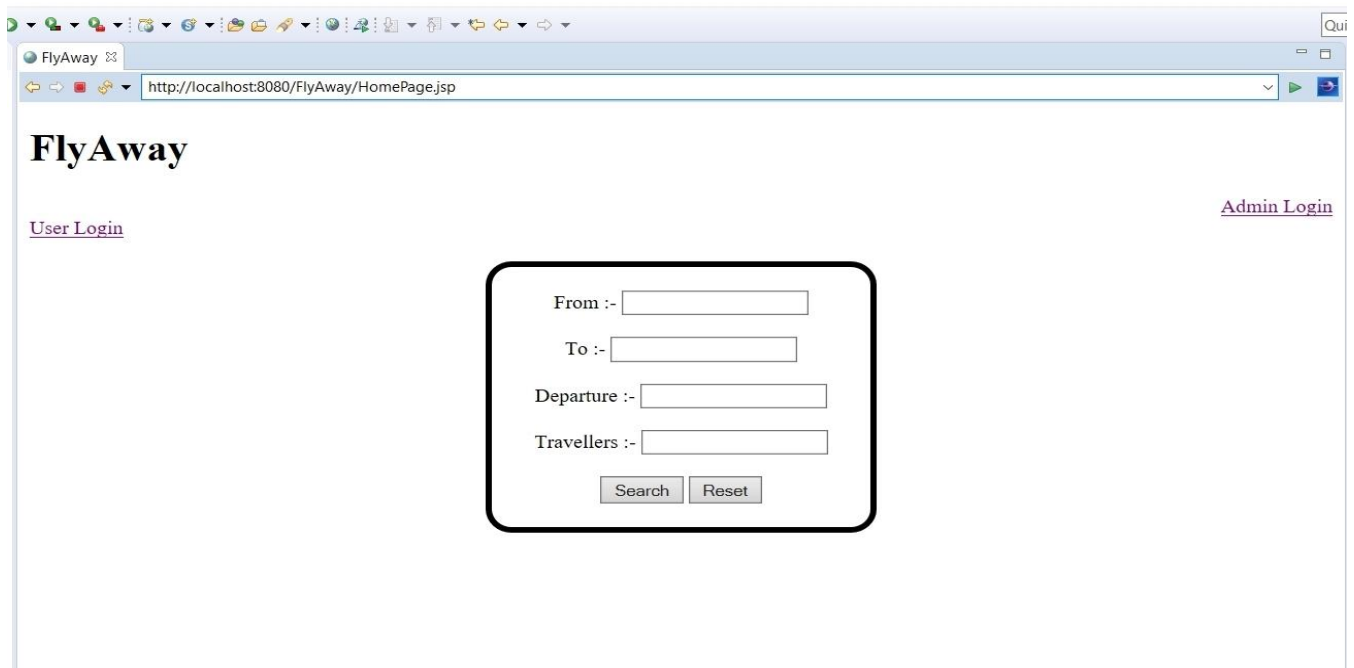

The screenshot shows a web browser window with the title "FlyAway". The address bar displays "http://localhost:8080/FlyAway/UserPage.jsp". The page content includes the "FlyAway" logo at the top left. In the center of the page, there is a rounded rectangular form titled "User Login". Inside this form are two fields: "Email" and "Password", each followed by a text input box. At the bottom of this form are two buttons: "submit" and "Reset". Below the form, there is a link "New User-Create account" and a link "Create Account" which is underlined and in red.

3. User will enter login credentials

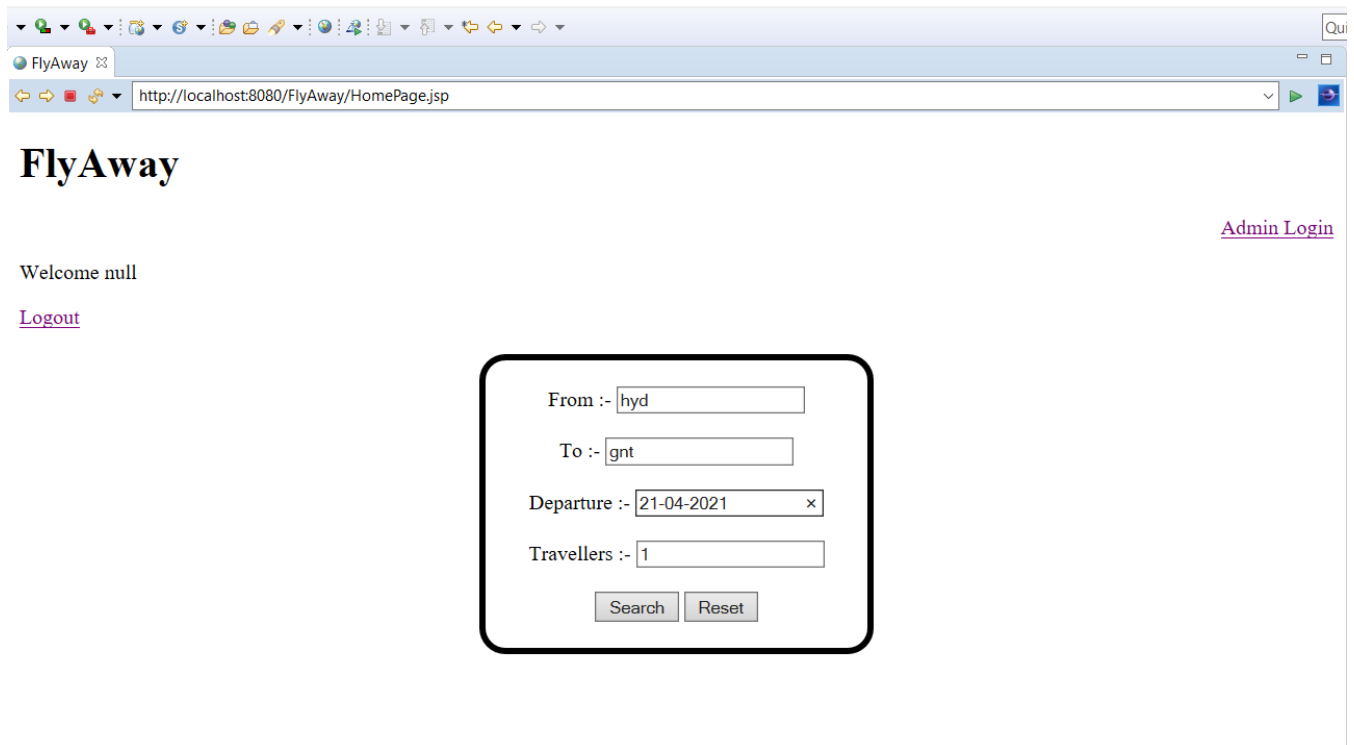

The screenshot shows a web browser window with the address bar displaying `http://localhost:8080/FlyAway/UserPage.jsp`. The page title is "FlyAway". The main heading is "User Login". Below it is a login form with two input fields: "Email" (containing `hasri@teksystems.com`) and "Password" (containing four dots). There are two buttons: "submit" and "Reset". Below the form, there is a link [New User-Create account](#) and a link [Create Account](#).
